ELITE / STANDARD

## WALL PACi STANDARD AND ELITE INVERTER+

The extension of the range to include a 7.1 kW unit allows for many more applications such as studios, gyms, high ceiling areas and even computer server rooms.

The unit's compact design and flat face ensure discreet installation, even in a small space.

### Washable front panel

The indoor unit's front panel can be easily removed and washed for trouble-free cleaning.

### Closed discharge port

When the unit is turned off, the flap closes completely to prevent dust getting into the unit and to keep the equipment clean.

**SEASONAL  
EFFICIENCY (SCOP)**

PRODUCT FOLLOWS THE NEW  
ECODESIGN REQUIREMENTS

- New 7.1 kW capacity unit
- New flat face design for modern appearance
- New compact design offers over 15% reduction in overall size
- Washable front panel
- DC FAN for better efficiency and control
- Three directional piping outlet

## Quiet operation

These units are among the quietest in the industry, making them ideal for hotels and hospitals.

## Smooth and durable design

The sleek, compact design ensures a discreet installation - even where space is limited.

## Piping outlet in three directions

With three options for pipe outlets - rear, right and left - installation is made easy.

Air distribution is altered depending on the operational mode of the unit

Internet Control Ready  
CONTROL YOUR AIR CONDITIONING FROM EVERYWHERE

Reference PA-RC2-WIFI-1

Control your air conditioning from wherever you are at home. Control your comfort and efficiency with the lowest energy consumption

Control your environment from your iPad, iPhone, any Android device or from a PC with Internet access using this add-on service. Offering the same functions as if you were at home: start/stop, Mode Operation, Set Temperature, Room Temperature etc. Experience the new, advanced functionality provided by Panasonic to achieve the best comfort and efficiency with the lowest energy consumption.
